

## **EPIM Drilling Core Group**

### Minutes of Meeting

31.05.12

*Present:* Jonas Stokka, Arild Solsbak, Ivar Blaauw, Angela Albrektsen og  
Kari Anne Haaland Thorsen

*Chair:* Kari Anne Haaland Thorsen

*Minutes:* Kari Anne Haaland Thorsen

*Next meeting:* 28.08.12

---

### **Agenda:**

1. Approval of agenda
2. Approval of MoM from last meeting
3. Extract of information from ReportingHub
4. DDRML 1.2. documentation and testfiles
5. reportinghub.org
6. Next Meeting
7. A.O.B.

### **Minutes:**

#### **1. Approval of agenda**

OK

#### **2. Approval of MoM from last meeting**

MoMs from previous meetings can be downloaded from the following link:

<http://drilling.posccaesar.org/svn/meetings/DCG/>

#### **3. Extract of information from ReportingHub**

The ERH implementation team will start working on different possibilities to extract and download data from ERH. Input from the core group is needed in order to priorities scopes for data extract. Kari Anne informed about the idea, and will subsequently send out a list of scope for prioritizing.

#### **4. DDRML 1.2. documentation and testfiles**

The documentation file is available from the following link:

[http://drilling.posccaesar.org/svn/standards/DailyDrillingReport/1.2.0/Documentation\\_v0-1.docx](http://drilling.posccaesar.org/svn/standards/DailyDrillingReport/1.2.0/Documentation_v0-1.docx)

Test files, an xml report and its corresponding PDF report, as generated from ERH are now available as part of the documentation files. The files are available from the following link:

<http://drilling.posccaesar.org/svn/standards/DailyDrillingReport/1.2.0/>

#### **5. reportinghub.org**

reportinghub.org is up and running. EPIM would like feedback from the core group with regards to content and layout.

#### **6. Next Meeting**

## **7. A.O.B**

Comment from COPNO. Their partners, consumers of drilling reports, were not satisfied with how reports was generated and stored in L2S. Prior to ERH they got a summary report of all drilling activities, and a PDF containing data from all drilling activities. Now they have to access multiple reports, one for each well. We need to look at the possibilities for ERH to support the same reports.

### **Actions:**

- Action 12.06: Look at the possibility to add new reports to L2S (Kari Anne)
- Action 12.07: Contact Drilling Managers Forum to inform about both EPIM and ERH (Kari Anne)
- Action 12.08: Give feedback on [www.reportinghub.org](http://www.reportinghub.org) (All members of the core group)
