5. Tight Well in ERH rel. X.X
6. A.O.B.

Information to the operators wrt DDR v.1.2

- Status

- Casing and cementing
 - Due to security issues, it is recommended to also report on elements related to casing and cementing. This includes the following elements:
 - ???
 - Need input from the group
- Peloton has started implementing
 - Kari Anne is in dialog with peloton wrt the feedback on the documentation
- New date?

ERH DDR GoLive - Status

- GoLive - Status
 - ERH 2.0 is running
 - Has been running since 8th of April
 - Conoco has started tested the solution
 - Arild will give an update on this
 - EPIM will contact the companies wrt ERH

Tight well in ERH rel. X.x.

- ERH rel. 2.0 -
 - ERH will not handle tight wells until all operators are on 1.2
 - Tight well reports need to be sent directly to NPD
- How should tight well be handled in new release. E.g. :
 - NPD upload and then delete
 - NPD upload and store as xml with no access.
 - Turn into triple and send report to partners when the well is released
 - How to indicate that the reports can be released?
 - NPD upload, store as xml and as triples with no access
 - Send report to partners when the well is released

A.O.B.
